Hester ties up with Ghen of Japan

BOMBAY – Ahmedabad-based Hester Pharmaceuticals Ltd has entered into a strategic alliance with Ghen Corporation of Japan and its subsidiary Maine Biological Laboratories of the US for setting up a modern poultry vaccine manufacturing unit.

The plant, to be located in Ahmedabad will be set up at a cost of Rs five crore. The company will manufacture 395 million doses of live and killed vaccine using the MBL and Ghen technology. Promoted by Rajiv D Gandhi, the unit is expected to go on stream in March 1995.
